Mehboob Garden opposite | +92 348-4538217 | sohaibikram249@gmail.com  
Nishter Colony, Lahore

## PROFILE SUMMARY

Versatile and highly skilled Full Stack Web Developer with over 2 years of experience in designing, developing, and deploying robust web applications. Proficient in front-end technologies such as HTML, CSS, JavaScript, and frameworks like React, as well as back-end technologies including Node.js, ASP .NET and Laravel. Adept at working with databases such as MySQL and MongoDB. I am eager to grow and learn within a dynamic team environment.

### SKILLS

MernStack  
ASP .NET  
PHP, Laravel  
Tailwind CSS  
Git, GitHub

| <b>Matriculation – Science</b><br>Bab-e-Arqam Model High School                 | 2018-2020      |

## PROJECTS

|                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Instagram Clone</b> (Laravel, HTML, CSS, JavaScript) <ul style="list-style-type: none"><li>Developed a social media platform with authentication, user profiles, and post interactions.</li><li>Implemented features like login/signup, profile updates, image uploads, likes, comments, and post deletion.</li></ul>                                                                                                                      |
| <b>Solo-Tech</b> (MERN Stack: MongoDB, Express.js, React, Node.js) <ul style="list-style-type: none"><li>Developed a full-stack web platform with authentication, user dashboards, and dynamic content management.</li><li>Integrated secure login/signup, real-time updates, and responsive UI using React and Tailwind CSS.</li><li>Built RESTful APIs with Express.js and Node.js, leveraging MongoDB for scalable data storage.</li></ul> |

## **Bright Mind Quiz Application** (ASP.NET Framework, MERN Stack)

- Developed an interactive quiz platform supporting C++ and Python quizzes with authentication.
- Built the frontend using React and backend with both ASP.NET Framework and MERN Stack for scalability.
- Implemented user login, quiz submission, result tracking, and category-based quiz selection.
- Enabled teachers to create, edit, and remove MCQs, with results displayed in student and teacher accounts.

## **Registration Management System** (Laravel, MySQL)

- Developed a user registration and authentication system with secure data handling.
- Implemented role-based access control and session management.
- Integrated CRUD operations for user data management with Laravel and MySQL.
- Focused on a structured, user-friendly interface with validation and error handling.
